

# The Lexington

THE MAGIC CARPET RIDE

SIZES

185

DIMENSIONS

155/130/151

The Lexington has invented a whole new skiing sensation. Surf, float and glide in the deep stuff effortlessly. Exaggerated rocker in the tips and 130mm of width underfoot will keep you afloat when getting out of your front door involves tunnelling.

A smooth and manageable flex keeps the Lexingtons responsive and playful so you can unleash freestyle tricks on big mountain lines. There's a touch more sidecut than you'd expect for increased agility in tight chutes and a slashy feel on lips.

This is a big stick! One more time: size does matter.

SHAPE: DIRECTIONAL

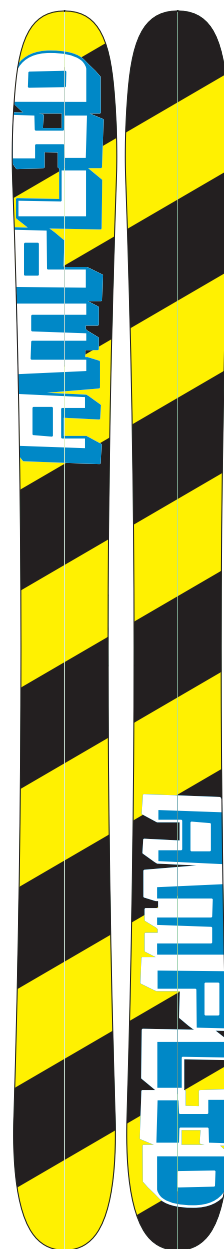

CAMBER/ROCKER IDEOLOGY

CAMROCK
