

# The Provoke

BUST A TRICK NOT YOUR WALLET

SIZES	159	167	175
DIMENSIONS	115-84-115	115-84-115	115-84-115

The PROVOKE's performance to cost ratio has industry boffins scratching their heads. From switch cheese wedge take-offs to puffy pillow lines and techy backward box set-ups, the subtle CAMROCK and true twin geometry of Provoke means it's a real slay it all freestyle ski. The not so secret ingredient in the Provoke is our WDT Polywood core which is leading the way in eco construction and shock absorption.

Our teamriders wanted the well-approved Dopamine puking chicken graphics on this year's Provoke. Well, here comes a new composition of these 70's skate inspired artwork. BTW: Ride the graphics symmetrical or switch'em up, you can mount these true twins to match your style.

SHAPE: TRUE TWIN

CAMBER/ROCKER IDEOLOGY
