

# The Virtue

GIRLS ON FAT SKIS HAVE MORE FUN

SIZES

170

DIMENSIONS

131-104-122

Surf the deepest pow of your life, skip across epic pillow lines and blast post-powder-day chop like a pro. Keep the good stuff for the VIRTUE.

The secret to the Virtue is the CAMROCK profile. A smooth rocker in the nose and tail keep your tips out of trouble and underfoot camber adds stability and life fully rockered skis cannot match. We kept the flex modest so they'll respond graciously to rider input.

Take you powder riding skills to terrain you have only dreamed of riding.
